BRABUS 850 - MB CLS63

Motor: 8-Zylinder
Mileage: 62000 km
Engine size: 5912 cm³
0-100 km/h:* 3,8 sec
Power:* 625 KW/850 PS
Vmax:* 350 km/h

Consumption:*
Urban 14,4 l/100km
Extra-urban 8,4 l/100km
Combined 10,6 l/100km
CO2 emissions:* 248 g/km

Features

BRABUS Features

Colour: Designo graphite
Upholstery: BRABUS fine leather, Fire Red with Passion Exclusive Black
Trim: Designo trim piano wood black
BRABUS engine 850 6.0 biturbo - Displacement: 5,912 cc, Power; 625 kW (850 hp) at 5400 rev / min, Torque: 1,450 Nm* at 2500-4500 r / min , (*electronically limited to 1,150 Nm), Displacement increase to six liters consisting of: Finely balanced from the solid and special crankshaft with stroke 96.00 mm, 8 bore forged pistons for 99.00 mm and custom compression height, Reinforced multi-layer steel (MLS) head gaskets for bore 99.00 mm, 2x BRABUS custom Turbo-chargers with a larger compressor unit, BRABUS intake module 850 consists of: Air-filter housing with enlarged intake diameter including air controlled, or in the hood, Carbon fibre clean air ducts with enlarged cross-section, Down pipe 75 mm, Low back pressure metal catalyts
BRABUS valve-controlled sports exhaust system
BRABUS "Gold Heat Reflection" for intake - and boost tubes BRABUS special Engine Management for ECU
BRABUS Rocket front Skirt- Carbon Fiber- including LED running lights
BRABUS Rocket rear spoiler - Carbon Fiber black glossy
BRABUS sport fender add-ons- Carbon Fiber black glossy
BRABUS side skirts with intergraded LED-illumination
BRABUS Carbon inserts for side skirts
BRABUS Rocket rear diffuser- Carbon Fibre black glossy
BRABUS rear skirt air outtakes- Carbon Fibre black glossy

All information are supplied without liability.

*All listed performance figures are approximate values. They depend on vehicle-specific details such as the vehicle type, equipment, tare weight, rear-axle ratio, wheel-tyre combinations, transmission type and aerodynamic equipment of the specific car. Figures about performance increases and/or performance kits are to be understood as average values. Test-dependent divergences of +/- 5% are possible. Figures about the overall performance of changed factory engines through performance increases and/or performance kits are based on the manufacturer's data listed in the vehicle registration document, which can vary by +/- 5%. BRABUS does not warrant any further reduced performance of factory engines. Specifications are subject to change without prior notice.

These values were determined using the prescribed measurement procedure (directive 80/1268/EEC in its currently valid version). The details are not based on a single vehicle, and do not form a component of the offer, but serve only for purposes of comparison between different vehicle types.

**All prices are quoted ex works.
