NOTICES

*All listed performance figures are approximate values. They depend on vehicle-specific details such as the vehicle type, equipment, tare weight, rear-axleratio, wheel-tire combinations, transmission type and aerodynamic equipment of the specific car. Figures about performance increases and/or performancekits are to be understood as average values. Test-dependent divergences of +/- 5% are possible. Figures about the overall performance of changed factoryengines through performance increases and/or performance kits are based on the manufacturer's data listed in the vehicle registration document. They canvary by +/- 5%. BRABUS does not warrant any further reduced performance of factory engines. Specifications are subject to change without prior notice. Thesevalues were determined using the prescribed measurement procedure (directive 80/1268/EEC in its currently valid version). The details are not based on asingle vehicle, and do not form a component of the offer, but serve only for purposes of comparison between different vehicle types.

**All prices are quoted ex works.

EFFICIENCY & FUEL ECONOMY

Fuel Economy*

city 6,9 l/100km

highway 5,5 l/100km

combined 6,0 l/100km

CO₂ 158 g/km

CO₂-EFFICIENCY*

* Determined based on the measured CO₂ emissions in consideration of the vehicle mass.
