BRABUS Classic 2 years full vehicle warranty

---

BRABUS Classic pre-delivery check

---

BRABUS Classic pre-delivery inspection

---

BRABUS Classic photobook with restoration documentation

---

# MERCEDES-BENZ 280 SE 3.5

You don't drive it, you take it off: In September 1969 the 280 SE 3.5 Cabriolet made it's debut as the most powerful version of the W111 with a completely newly developed 3.5-litre V8 engine. With only 1,232 units built, the top model is extremely rare and is one of the most sought-after classic cars of its time. With this automobile restored in BRABUS Classic 6 star quality, we revive the exclusive driving experience - as if it were 1969.

## PERFORMANCE & FUEL ECONOMY

### TECHNICAL DATA

|                   |                              |
|-------------------|------------------------------|
| Engine            | 8-Cylinder                   |
| Engine size       | 3499 cm <sup>3</sup>         |
| Power             | 147 kW / 200 PS              |
| Registration date | 12.04.1971                   |
| Mileage           | 0 km (after<br>restauration) |
| 0-100 km/h        | 9,4 s                        |
| Vmax              | 200 km/h / 127 mph           |

### PRICE

|       |                |
|-------|----------------|
| Gross | 698.000,00 EUR |
| Net   | 586.554,62 EUR |

# NOTICES

\*All listed performance figures are approximate values. They depend on vehicle-specific details such as the vehicle type, equipment, tare weight, rear-axle ratio, wheel-tyre combinations, transmission type and aerodynamic equipment of the specific car. Figures about performance increases and/or performance kits are to be understood as average values. Test-dependent divergences of +/- 5% are possible. Figures about the overall performance of changed factory engines through performance increases and/or performance kits are based on the manufacturer's data listed in the vehicle registration document. They can vary by +/- 5%. BRABUS does not warrant any further reduced performance of factory engines. Specifications are subject to change without prior notice. These values were determined using the prescribed measurement procedure (directive 80/1268/EEC in its currently valid version). The details are not based on a single vehicle, and do not form a component of the offer, but serve only for purposes of comparison between different vehicle types.

\*\*All prices are quoted ex works.

# EFFICIENCY & FUEL ECONOMY

|                      |
|----------------------|
| Fuel Economy*        |
| city l/100km         |
| highway l/100km      |
| combined l/100km     |
| CO <sub>2</sub> g/km |

## CO<sub>2</sub>-EFFICIENCY\*

\* Determined based on the measured CO2 emissions in consideration of the vehicle mass.
