The BRABUS Classic 6-Star Restoration

Thousands of hours of labor, the expertise from more than 40 years of experience with Mercedes-Benz cars, and an unconditional love of detail: That is what distinguishes a BRABUS Classic 6-Star Restoration. At the end of this elaborate process are historically authentic automotive works of art – in a quality as if the classic had just come off the production line. A solid investment with an incomparable fun factor.

From the first to the last screw

The start of any BRABUS Classic 6-Star Restoration of a Mercedes-Benz classic always is the complete disassembly of the base vehicle in our workshop. All parts are inspected and indexed in the process. Unserviceable parts are discarded. Others that are suitable for

reconditioning are returned to new condition by our specialists with utmost care. All missing, damaged or worn out components are replaced with newly manufactured genuine Mercedes parts – from the first to the last bolt. An unparalleled approach in the restoration of vintage cars.

New age shine

The automotive gem is brought back to life with maximum precision and deep devotion:

This starts with the chemical removal of all paint. The engine and transmission are thoroughly overhauled, the interior is elaborately restored, the body is given a cathaphoretic dip primer coat as can be found on modern production vehicles and then undergoes a comprehensive rust protection treatment before receiving its final paint finish. Once all work steps are completed, the Mercedes classic once again shines in its new old luster.

GRADE A+ CERTIFICATE

After the completed BRABUS Classic 6-Star Restoration, Classic Data, the leading experts' organization for vintage cars, awards the vehicle a grade of A+. In addition, because of the unique quality of the work and its true-to-the-original character, the vehicle is given a

supplementary certificate attesting it "new car character." The car is like new – the BRABUS Classic 6-Star Restoration even surpasses the original delivery condition with regard to the quality of workmanship and rust protection. A classic you can only find in this quality at BRABUS Classic.

Of course, a BRABUS Classic

6-Star Restoration is in line with the "matching numbers" principle: The restored vehicle came off the production line at the time with exactly the same engine and transmission that it is equipped with now. This also applies to all other parts and major assemblies. In addition, the paint color and the color of the interior plus many more details correspond to the original version.

Car Appraisal

Certificate number: G3JL148S
Assessment only valid with photo attached
Number of expert's opinion: C2373

The result is a car that has the value of a new car, which is confirmed by BRABUS. Such cars are sold with a full two-year guarantee and therefore differ significantly from "normal" vintage cars.

The very detailed restoration and the accruing costs and special services must be considered accordingly in the valuation of the car.

Equipment and description:

See statement by SV-Büro Liermann, Vierhaus Straße 4, 44807 Bochum.

In due consideration of the information on the car submitted to us and in view of the restoration, the quality of the work and the material used and the corresponding costs and services and the particularity of the target client a **restoration value** in **condition 1** of approx.

EUR 730,000.00 - 750,000.00

Authentic OEM Mercedes-Benz data card of this vehicle out of Mercedes-Benz archive

Mercedes-Benz 280 SE 3.5 Convertible

You don't drive it, you take it off: In September 1969 the 280 SE 3.5 Cabriolet made it's debut as the most powerful version of the W111 with a completely newly developed 3.5-litre V8 engine.

With only 1,232 units built, the top model is extremely rare and is one of the most sought-after classic cars of its time.

With this automobile restored in BRABUS Classic 6 star quality, we revive the exclusive driving experience - as if it were 1969.
