PERFORMANCE & FUEL ECONOMY

TECHNICAL DATA

Engine	12-Cylinder
Power	537 kW / 730 PS
Mileage	14.800 km
Registration date	01.07.2006
0-100 km/h	4,4 s
Vmax	300 km/h / 186 mph

FUEL ECONOMY

PRICE

Gross	199.900,00 EUR
Net	167.983,19 EUR

NOTICES

*All listed performance figures are approximate values. They depend on vehicle-specific details such as the vehicle type, equipment, tare weight, rear-axle ratio, wheel-tire combinations, transmission type and aerodynamic equipment of the specific car. Figures about performance increases and/or performance kits are to be understood as average values. Test-dependent divergences of +/- 5% are possible. Figures about the overall performance of changed factory engines through performance increases and/or performance kits are based on the manufacturer's data listed in the vehicle registration document. They can vary by +/- 5%. BRABUS does not warrant any further reduced performance of factory engines. Specifications are subject to change without prior notice. These values were determined using the prescribed measurement procedure (directive 80/1268/EEC in its currently valid version). The details are not based on a single vehicle, and do not form a component of the offer, but serve only for purposes of comparison between different vehicle types.

**All prices are quoted ex works.

EFFICIENCY & FUEL ECONOMY

Fuel Economy*
city l/100km
highway l/100km
combined l/100km
CO ₂ g/km

CO₂-EFFICIENCY*

* Determined based on the measured CO2 emissions in consideration of the vehicle mass.
